

CONWAY RADIO CONTROL ASSOCIATION

CRCA is a non-profit R/C flying club located in Conway Arkansas. CRCA utilizes a flying field located at Beaverfork Lake and maintained by the city of Conway. The field is a close-cut large open area with access open to all interested flyers. Instructors are available for test flights and flight training.

Flying as a guest of a CRCA member is limited to Academy of Model Aeronautics members, (AMA) on a one-time basis. Short term memberships (monthly) are available on request to AMA members if needed.

AMA provides the insurance for the property owners as well as our members. AMA membership is a requirement for most all model clubs.

Designated CRCA members can also perform a safety pre-flight checkout and test fly your aircraft for a demo flight prior to your becoming an AMA/CRCA member, limited to a one-time basis.

Spectators are always welcome to come out and watch us anytime, BUT BEWARE, BUILDING AND FLYING R/C AIRCRAFT IS CONTAGIOUS!!!

If you would like more information, please call
Ken Boling at 501-470-5444. E-mail: kboling@windstream.net
